BRIEFLY

I am a web developer with nearly 9 years of experience, but I have always had a strong interest in management, and financial markets. I have always been enthusiastic about in-browser ML.

AREAS OF INTEREST

Programming & Machine Learning
Strategy & Public Speaking
Entrepreneurship & Innovation
Investment & Cash-flow Analysis

EXPERIENCE

Web Developer & Team Leader

Feb. 2015 → Mar. 2022

I have worked as a senior software developer for multiple companies and have led a team that successfully delivered high-quality software on time and within budget. These roles have allowed me to gain extensive experience and familiarity with both Waterfall and Agile methodologies.

- ✓ Successfully managed 21 medium scaled projects with a team of 6 professional developers
- ✓ Surpass at revenue target in 2020 despite the special situation of coronavirus pandemic

Stocks & Forex Trader

Aug. 2019 → Present

Working as a trader has provided me with valuable skills and insights that cannot be obtained through other experiences. I have learned about money management, technical analysis, decision-making, objectivity, and the psychological factors that influence financial markets. I have also devoted time to studying psychological biases and the importance of fundamental analysis in identifying standout companies in the market.

- ✓ Invested \$30 000 in Tehran Stock Exchange over one year with \$10 000 in profits for several clients
- ✓ Read more than 60 books about behavioural economics, global economics and finance

Startup Owner

Oct. 2019 → Feb. 2022

I believe that theory without practice is empty, so I decided to put my knowledge of management and leadership into practice by starting a project with a group of talented programmers. Our goal was to create a stock monitoring platform that used machine learning to suggest winning daily stocks based on their previous performance. Unfortunately, the project was not successful. However, I gained invaluable experiences and lessons from this endeavor.

- ✓ Attracted more than 1000 customers over the course of three months
- ✓ I was able to get project up and running with \$4

EDUCATION

Shahid Soltani Talented Students (N.O.D.E.T)

Sep. 2011 → Sep. 2018

Seven years of high school with other talented students taught me that talent requires lifelong learning. I have consistently applied this lesson in my own life and plan to continue doing so.

✓ I organized an annual exhibition in which students could express their ideas and inventions

Imam Khomeini Internation University

Sep. 2018 → Aug. 2022

Throughout my four years of study at IKIU, I have willingly taught and presented various concepts in different classes. I have supervised approximately 200 students and held over 100 sessions, during which I identified some highly skilled students and started a startup focused on stock trading and investment.

✓ I significantly enhanced my public speaking, presentation, and persuasion skills
